Date _____ \$ _____

TOTAL MONTHLY SALES \$ _____

Sales reports are used to determine the approximate combined sales at the Market on a given month. These numbers are totaled for the year to help evaluate the growth of the Market as well as estimate our economic impact to our community. The Dept. of Agriculture use the total number of gross sales to calculate the growth and economic impact of farmer markets around the state. Our insurance company also bases our exposure and our annual premium on the sales amount.

Sales information is confidential and is not given to the tax commission. Please check the type of business that applies.

Please fill out and return the 1st Saturday of each month with your fees.
